Rumored Massacre

Yesterday S. B. Martino, of Bullio ville, brought a horrifying report from that town, to the effect that night before last some of the Indians camping in that vicinity stated that the Casters family had been murdered, near the Muddy, while on their way to Panamint. The party consisted of Mr. Castern, his wife and three childred, accompanied by a man, whose name we did not learn. Mr. Casters and family had been for some time residents of Pioche, were well-known and esteemed, much excite ment was caused by the report of their barbarous murder. Telegrams were at once dispatched to Governor Bradley and to the scommunics of the United States troops stationed at Beaver. Officer McKee and Deputy Sheriff McManus immediately went down to Bullionville in order to learn what could be gleaned from the Indians. On their arrival they found that an Indian boy had come in, who stated that he was one of the party of Indians who attacked the Honan party near Hiko, and was present while the fourders were being committed, though he did not take any part in the assassinations. When the officers reached Bullionville, the Indians had been taken over to Pansca to Barren's. The officers went to that gentleman's residence, where they learned the Indians had returned to the camp of the band that was staying near Bullionville. Mr. barbarous murder. Telegrams were at had returned to the camp of the band that was etaying near Bullionville. Mr. Barren accompanied the officers to the camp, pointed out the Indian, and the officers arrested him, brought him to town and lodged him in jail, where he now is. He knows nothing about the alleged murder of the Casters family. While Mones and McManus were at Bullionville Mones and McManus were at Bullionville they endeaved to the cast. white mones and manages were at Bul-lionville, they endeavored to trace up the murders near the Muddy, but could find no one, neither white people or Indians, who knew anything about it. From all we can learn about the matter, we great-ly doubt wether there is any toundation for the report. We, however, think a ly doubt wether there is any toundation for the report. We, however, think a party should be at once organized to visit the region of the Muddy and ascertain to a certainty the trath or falsity of the terrible rumor. We also think that the applications to the Governor and Commander of the Post at Heaver, were well timed. We know that two men have been butchered and one badly wounded. We also know that there is a very reason to believe that that there is every reason to believe that many solitary travelers have fallen vic-tims to the lust for blood which is inborn tims to the lust for blood which is into in Indian nature. Knowing these things, we think it is about time that a measure of retribution should be dealt out to of retribution should be dealt out to these murdering wretches, the severity of which will give them a lively fear of the vengeance of the whites. We therefore would advocate the immediate organizawould advocate the immediate organiza-tion of an expedition to scour the Muddy country, ascertain the whereabouts of the Casters party, and after that matter has been cleared up then they should turn their attention to the arrest and punishment of those who attacked the Honan party. They are said to be a band of four or five renegade Indians headed by Tempiute Bill, who is notori-ous for many rascalities, and strongly suspected of other murders. They are suspected of other murders. They are said to have taken refuge with the Sho shones in the Beimont country, who are themselves committing various outrages need some wholesome correction. ope the matter will not be allowed to drop, and desire to impress upon the mind of the Executive the prime necesmind of the Executive the prime neces-sity for speedy action. Right here in Pioche a party could be formed forth-with of active, hardy young men who would very quickly determine the ques-tion of the safety of the Castera family, and give a very satisfactory account of all the Indians that have been amusing themselves with slamphtering American

REQUEST FOR ATD .- So soon as the rumore of the alleged murder of the Castera family were known in town the following telegrams were sent respectively to Governor Bradley and the Command-er of the United States Post at Beaver,

Utah:
To His Excellency, Governor Bradley.
Carson, Nev.:—The Indians have killed eight persons, including one woman and three children, within the last few days three children, within the last few days in this county on the Muddy reservation and near Hike. We have no arms and no protection. We wish arms, and the Indians punished. Have telegraphed for troops to the Commander of U.S. troops at Beaver, Utah.

To the Commander of U. S. Troops,
Seaver, Utab:—Indians have killed several persons in this county, near Hiko and the Muddy Reservation. We have no arms, and sak troops for protection and that the Indians be punished.
[Signed as above.]

THE HIEO MUNDERERS.-We learn from a private letter addressed to W. H. erson, our efficient and courteous County Recorder, that the parties who went out from Hiko for the purpose of arresting the murderers of the Honan party have returned without effecting their object. Tempints Bill, the leader of the band of assassins, is said to have party have returned without electing their object. Tempiute Bill, the leader of the band of assassins, is said to have gone to the mountains near Belmont, where he has taken shelter with the Shoshones. The young Indian arrested yesterday at Panaca, by McKee and MoManus, who was present when the murders were committed, may there were only five back Indians in the attacking party of whom he was one: the rest party, of whom he was one; the rest were squaws and children. He describes were squaws and children. He describes the murderous affair as if it were done from pure devilishness upon the part of the Indians, with no other motive than to gratify their passion for blood. After speaking of the meeting, he says they were all walking together, when an Indian known as "Crocked Leg," from some deformity of that limb, said in their own language "Let us kill them," and nothing losth, his companions set about the bloody work. One was armed with a gun and abot Hopan, the man who escaped—his companions were killed with arrows. For our part, we sincerely hope that ere long Crocked Leg's need may be se erected as his sucher extremity.

though the frightful tale hangs upon such a vary stender thread as to its authenticity, still the matter coucht to be at once inquired into. A small party could be dispatched to St. Thomas, the Vegas and that region, for the purpose of clearing up the doubts respecting the alleged horrible butchery. If the terrible crime has been committed then the power of the State can be invoked at once to punish the miscreants who committed so frightful an atrocity.

The Board of Managers of the Methodist Missionary Society met yesterday to conclude the business for the year. Appropriations were made for the purch and repair of property at Pachua, Mexico, and the Rev. William Butler was granted power of attorney to acquire the title for the society. Very large appropriations were made for domestic missions, particularly for the relief of the districts devastated by the grasshoppers plague. Money was also appropriated

for an increase of salaries, chiefly in the districts of Rome, Italy. CHICAGO, Dec. 16. - A Washington special says the Pacific mail investigation begins to assume a very solemn, almost tragic aspect. Irwin failed to appear before the Ways and Means Committee. This morning a careful examination by physicians showed that he was in quite a dangerous condition of nervous prostration. Sometime ago his skull was fractured by an accident, and the nervous excitement since encountered tends to distract his mental balance. This is his present condition. During part of the day he was in partial delirium-but late to-night he is calmer. He is carefally watched by his physicians, and the house is closely guarded by the Sergeant-at-Arms—only a few persons being allowed to approach him. He is practically in close confinement. Those who have seen him state his mental excitement is due to the struggle in his mind as to the course he will pursue. If he tells the whole truth it is said he will make a most astounding revelation. If he declines to testify he will not be able to justify himself, and, as he is charged by the Pacific Mail Company with the theft of \$750,000, the indications are that he will tell the whole truth, and it

Another special says Rufus Hatch has arrived here with the books and papers of the Pacific Mail Company, and is ready to be examined.

The attempt to delay the examination of Irwin is suspected to be a part of the scheme by which each side, that is, Irwin on one hand and the company on the other, is attempting to force the examination of the other first.

It is known that when Hatch is examined his books will show that on the 24th of May, 1872, the day when Irwin's checks were drawn, that a firm of brokers in New York-Harcott & Noyes-were charged with \$150,000 on the books of the Pacific Mail Company. On the 1st of September following the same firm returned to the company \$500,000, and on the same day Stockwell drew a check for \$500,000 and charged the same to the San Francisco agency, which at the time was in charge of Irwin.
